"Moth To A Flame"

Visit "[Moth To A Flame](#)" on [MotoLyrics.com](#)

Here again, drawn like a moth to a flame
An invisible force pulling me close to you
I can't break free, there's some kind of hold over me
Like a magnet, you attract me like steel

I'm a kamikaze pilot, it's a one way flight
Getting to you, it's gettin' to me
Must be lack of oxygene, I'm too [diphonetic], no
rationale
'Cos anyone else could tell, you don't stand a
snowball's chance in Hell

Chorus:

A moth to a flame, a fatal attraction, I'm flying too
close to the sun
Sooner or later you're gonna get burned
Moth to a flame, a lethal reaction, I'm loving you under
the gun
It's just a matter of time before I get hurt

Over my head, your quicksand bed, the more I
struggle, the more I'm sucked in
Here again, drawn like a moth to a flame
An invisible force pullin' me close to you

I'm a kamikaze pilot, it's a one way flight
Getting to you, it's getting to me
Must be lack of oxygene, I'm too [diphonetic], no
rationale
'Cos anyone else could tell, you don't stand a
snowball's chance in Hell

(chorus)

(Solo)

(chorus repeats out)
