I live on an island far away, all by myself, there's no  
one else  
Nobody calls, but that's okay, don't need their help, I'm  
by myself  
Nobody here to make a career of hurting me, deserting  
me  
Your crazy life ain't ever gonna get me

chorus:

Don't worry about my recovery, 'cause lover, you won't  
recover me  
I'm not too low, I'm not too high, I'll get by makin' my  
recovery

When I go wrong as people do, there's only me to  
answer to  
Nobody here to bring me down, no feelings I need step  
around  
Trouble and care are waiting out there, but I'm alright,  
I'm safe tonight  
Your crazy life ain't ever gonna get me

chorus

Don't need your sympathy, save all your tears  
I've lived without tenderness, for too many years  
Why would I need it now

(Instrumental break)

Nobody here to make a career of hurting me, deserting  
me  
Your crazy life ain't ever gonna get me

chorus repeats out
