Eyes with two lovers would seem some shit
She cannot tell my Adam's apple from my fist
well language of the tears when they falling from your
eyes
can you tell me what language do you laugh in or smile
Be what just little ..in a lingo or lost,
Did you put your own body in a frisson next to the
thought
I've made of us, halo as our handcuffs
break up till we make up.
break up till we wake up.

See the storm before me,
And the world into your eyes
Gotta turn before it
clouds were mind
When the silence it's me
At this point I just don't know
Is the call before we
I'm bout to blow

I'm walking with a door cloud over your head
Feeling pain, best thing might just be and let it rain
might just be and let it rain.

Chorus:
Do we put the storm
and started over you and me say yeah, yeah
Yeah yeah
Tel it from my heart,
Well love is unpredictable say yeah yeah, yeah yeah
Can we put the storm, we're starting over
Can we put the storm, we're starting over
Can we put the storm, we're starting over
Halo as I handcuff, halo as I handcuff.

Since you took off and let's be alone with
Plenty of time to morning and not to grow with,
except a few pounds do the comfort needing
four days ..and leave the god in the..
guess it worth fully grown

but guess in ..happiness so too big room
apartment fresh door stuck on ceilings
you look like the way I'm feeling

Head strong and then song
Bad is why we love so hard
But in the line of fire
will worlds apart
see the sky is a falling
but in my heart is all I know
will nothing restrain.

I'm walking with a door cloud over your head
Feeling pain, best thing might just be and let it rain
might just be and let it rain.

[Chorus:]

..memoria de ti, de mi,
Ya no estan, ha sido no pacada por la dudas que
pusimos en la mesa
demos marcha atras y regresemos
a gritarnos fuerte, abrazando fuerte, a besarnos
fuerte.
Sabes que aunque grito yo te amo hasta la muerte
regresemos a comienzo de ti, de mi.

[Chorus:]
