Blinded eyes will come victorious
To my infamous rite
Satan guide their black existence
And the night made them fly

Feed them

Moonlight burns forbidden incense
Makes them smell the spell
Satan shows his evil circle
Where the power cone reborn

Celebration of sin
Celebration of sin
Celebration of sin
Celebration of sin
Praise you

We will laugh around the fire
Raising our sign
Ancient god of whores and children
Satan, set them free

Celebration of sin
Celebration of sin
Celebration of sin
Celebration

Take their blood
Feed them
