Yeah (yeah)
yeah (yeah)
Oh yeaj
We gonna keep it up (we gonna keep it up, up)
We gonna keep it up (we gonna keep it up, up)

You ain't typical boy but I don't know
If you're the type to play me like a toy
I've got some kind of feelings for you I'm kinda of
willing to
Give up all my love to ya
but I gotta slow it down

(Rush) I'm feeling a rush for you
(Hush) hush goes a sound in the room
It's like someone pressed the pause button
but when it got to me and you
it must of malfunctioned, malfunctioned

Cause everything is so slow, but we're moving at the
speed of light
Can't stop this feeling, but there's not much of a fight
(Here we go)
and baby I can't leave you alone

We're gonna party like it's the end of the world
Like it is our last night in year 2012
The stars pass me by as I'm floating through the sky
sitting on cloud nine with you

And we're gonna keep it up, up, up til the sunrise,
We gonna keep it up, til the sunrise
And we're going up, up, til the sunrise
And we ain't falling till the morning comes

Is that a bird, is that a plane? No it's just my smile
And butterflies inside going miles and miles
I thought I was immune to things like this
But you came and infected me like a virus

(I) I love your touch as you're caressing me

(Now) Now I'm blinded by all the stars that I see
It's like the world is illuminated by the love that
we share right here tonight, tonight

Cause even so high we can still see all the stares
focusing on us from everywhere (Here we are)
Here we are, zooming pass like a shooting star

We're gonna party like it's the end of the world
Like it is our last night in year 2012
The stars pass me by as I'm floating through the sky
sitting on cloud nine with you

And we're gonna keep it up, up, up til the sunrise,
We gonna keep it up, til the sunrise
And we're going up, up, til the sunrise
And we ain't falling till the morning comes

Take me up, shake me up,
Never give you up,
Healing me, loving me
baby I can hardly breathe
Take me up, shake me up
Never wanna give you up
Healing me, loving me
And baby you're all that I need

We're gonna party like it's nothing of the world
Like it is our last night in year 2012
The stars pass me by as I'm floating through the sky
sitting on cloud nine with you

And we're gonna keep it up, up, up til the sunrise,
We gonna keep it up, til the sunrise
And we're going up, up, til the sunrise
And we ain't falling till the morning comes

And we're gonna keep it up, up, up til the sunrise,
We gonna keep it up, til the sunrise
And we're going up, up, til the sunrise
And we ain't falling till the morning comes
