Here we go again
Say those lies to me again
You'll speak, and I'll hear
I can't stand you anymore my dear

Whip around
Burn it down
Take your life and drown it down
More or less, a second chance
Twist your body, awkward dance

I'll show you all the things you wanna see
All the things you could be
Just pop me in your mouth
Disneyland acid trip is coming south
More or less, start the dance
Throw reality into trance

Every word you speak, it changes
All the faces, rearranges
Talk to me, it's way past due
Pound your body, I'll see it through
Troubled now, burn it down
Disneyland acid trip is a'comin' round
Twist your body, do your dance
This begins your second chance

I'll show you all the things you wanna see
All the things you could be
Just pop me in your mouth
Disneyland acid trip is coming south
More or less, start the dance
Throw reality into trance

Look at me, what do you see
Every little nightmare you never knew was me
Pop it back in your mouth
This acid trip it taking you
Down ****ing south.
