You can try but you can't win
In this game of the love
When your tears have all dried out
You will see the truth

Now we go on separate ways
We 've been like to a different place
Now which way, another road
Walking to a place unknown

I 'm breakin away
Far from you far, far from you
I 'm breakin away
Far from you
Far from everything

You can try but you can't win
In this game of the love
When your lies have all dried out
You will see the true

Now we go on separate ways
We 've been like to a different place
Now which way, another road
Walking to a place unknown

I 'm breakin away
I 'll do it my way
I 'm breakin away
I 'll do it my way in every way

I 'm breakin away
Far from you far, far from you
I 'm breakin away
Far from you
Far from everything
