Everything I ever did for you was so worthless
(worthless)
Cause you never even realized (realized)
But I kept coming back and I don't know why
Why I put up with all of your lies

Cause I don't see where I'm the blame for
Everything that ever happened
Cause I don't see where I'm the blame for
Everything that ever happened
Everything that ever happened, that ever happened,
that ever happened

The times I tried you still blame me (blame me)
I sit back relax and watch it all come down
I want to make sure this ending was worth it
Cause if not then ill just leave now (leave now)

Cause I don't see where I'm the blame for
Everything that ever happened
Cause I don't see where I'm the blame for
Everything that ever happened
Everything that ever happened, that ever happened,
that ever happened

When you didn't even care
You left me all alone
To stay here by myself
Like nothing I've ever known
I'll never forget it
I'll never relive it
I'll never forgive it
Cause I'm never coming back again
Coming back again
Cause I never saw it coming
Coming back again
Back again
Cause I never saw it coming
