I can still remember our first kiss
It's a moment that I will always miss
I remember the way your hair was
I remember just because

I need you
Please come back to me
He's not right for you
Cause your what I need
And I'm not gonna be alright
No I'm not gonna be alright
Until you're here with me
Cause your what I need

I still look at your pictures
So I don't forget your smile
But it's in my head forever
For the rest of my life it haunts me on file
And I will always miss you
And this just won't do
I want you here in my arms
Please would it do us any harm?

I need you
Please come back to me
He's not right for you
Cause your what I need
And I'm not gonna be alright
No I'm not gonna be alright
Until you're here with me
Cause your what I need

I need you here by my side
To hold my hand for the rest of my life
Cause if I tumble or I fall you'll be there to catch me
I love you so please come back to me

I need you
Please come back to me
He's not right for you
Cause your what I need

And I'm not gonna be alright
No I'm not gonna be alright
Until you're here with me
Cause your what I need

You're what I need
