Hope you're listening
When you're driving
Hope you're listening at all
You should play me
Like a party
Hope you take the fall

You'll never see me again
Now that I know where you've been
The table's already turned
Now that I know who to rob

They face it, where do they base it
That it was okay
Who the fuck are they to say?
Rob, they face it, where do they base it
That it was okay
Who the fuck are they to say?

I'm allowed to be me, I'm allowed to be me
I'm allowed to be me on this day
I'm allowed to be me, I'm allowed to be me
I'm allowed to be me everyday, oh

Oh, my lovely
Shoot the baby
Nothing more than a doll
Taste the girls too
Make them love you
Fight for nothing at all

You'll never see me again
Now that I know where you've been
The table's already turned
Now that I know who to rob

They face it, where do they base it
That it was okay
Who the fuck are they to say?
Rob, they face it, where do they base it
That it was okay

Who the fuck are they to say?

I'm allowed to be me, I'm allowed to be me
I'm allowed to be me on this day
I'm allowed to be me, I'm allowed to be me
I'm allowed to be me everyday

Rob, they face it, where do they base it
That it was okay
Who the fuck are they to say?
Rob, they face it, where do they base it
That it was okay
Who the fuck are they to say?

I'm allowed to be me, I'm allowed to be me
I'm allowed to be me on this day
I'm allowed to be me, I'm allowed to be me
I'm allowed to be me everyday, go
