You let me down
You let me down and you don't know how
You let me down
You let me down and you don't know how

No regrets
I don't think so

Cause you let me down
You let me down
You let me down
You let me down

Down
Down
Down
Down
No regrets
No regrets

You walk around like you got sleep in
Your eyes you can't see me at all
When just the same as when we began
So now you listen you don't walk me
Around you can't see me at all

When just the same as when we began
You let me down
You're just the same
You're just the same
You're just the same as the others
You're just the same
You're just the same
You're just the same
You're just the same as the others

Cause you let me down
No regrets
You let me down
No regrets

You walk around like you got sleep in
Your eyes you can't see me at all
When just the same as when we began

So now you listen you don't walk me
Around you can't see me at all
When just the same as when we began

You let me down
You let me down
You let me down
You let me down
You let me down
You let me down

You're just the same
You're just the same
You're just the same
You're just the same as the others

You're just the same
You're just the same
You're just the same
You're just the same as the others

That's why we came to tell you
Took us for a ride
Took us for the worst ride
We're going home alone
And all that time
I think of you
One word

Whore
Whore
Whore
Whore

You're just the same
You're just the same

You let me down
You let me down
You let me down
