Hey Boy Hey Hey Girl Hey
Hey Boy Hey Hey Girl
[Repeat]

I've done some dirty deeds
But I've never done
A dirty deed to you
Years in the wilderness
'Till you found me
And gave me something true

Hey girl, you've lucked out
All the other girls they can only stare
That boy, he's so beautiful
Sleeping in the chair

People change but we're still here
We set sail without a destination
Weathered storms along the way
Face to face with temper
And temptation

Hey girl, you've lucked out
All the other girls they can only stare
That boy, he's so beautiful
Walking over here

I've found what heart is
It's being next to you
Without a single breath
Between us (between us)
I've found what heart is
It's being next to you
Without a single breath
Between us (between us)

Let me tell you
About this girl named Rose
She just got the sensation
Said I'd be there around 3 o'clock
Inside your house I've been waiting

Her mother and brother, they greet me
They're wonderful
Your house looks nice
And your son does too
On his way to Sunday School
Summers coming back on my mind
Get the girl baby I'll stand in line
you could bring your girls
I don't mind
3 nights, 2 days I'll be fine
Get the bread, get the cheese
Get the wine
Music blasting, a good time
You and me, we're aligned
What ya say, what ya say
Hey girl hey

Hey girl, you've lucked out
All the other girls they can only stare
That boy, he's so beautiful
Sleeping in the chair

I've found what heart is,
It's being next to you.
Without a single breath
Between us (between us)
I've found what heart is,
It's being next to you.
Without a single breath
Between us (between us)
