This world, there's so much going on  
We need to show more love  
And lookout for each other, that's all  
Too much crime, and violence that's around  
It ain't getting us nowhere  
Without love, we stand no chance

Ina , got to free your mind, yourself  
Seek and find and realize  
We're all as one, under the sun,  
Let us,, let us unite  
Let us not fuss, let us not fight  
Gotta think twice, and everything will be nice  
This world is yours, this world is mine  
Just take your time, let love be your guiding light

, growing up, fighting for turf  
Not knowing what's life worth,  
Hard to be no , with an uncertain future  
So young without ,make it say ,  
But until then let us care, for the children  
If not you, who's gonna do it?  
They need more schools, they need more jobs  
And for them not to kill and rob  
Come on now, we're all going through it  
No more ignoring, these issues are real,

Let us,, let us unite  
Let us not fuss, let us not fight  
Gotta think twice, and everything will be nice  
This world is yours, this world is mine  
Just take your time, let love be your guiding light X 2
