No More Life

I whisper every night my despair's the guide of my life,  
Constrained to loneliness, the angel's don't remind  
I can't be saved, I can't be saved, I'm eternal  
I can't be saved, I can't be saved, I know

You have drank my life,  
I am frozen inside,  
You have drank my life,  
There's no more life inside

Some people envy my perfection scented of the death,  
I feed their soul laughing on them my only joke,  
I am like a toy thrown in a world which is not mine,  
Feeling like a corp no more alive, but still not dead

You have drank my life,  
I am frozen inside,  
You have drank my life,  
There's no more life inside  
You have drank my life,  
I am frozen inside,  
You have drank my life,  
There's no more life inside

Soft and slow, I live in hell  
Where I go? Where is my heart?

You have drank my life,  
I am frozen inside,  
You have drank my life,  
There's no more life inside  
You live in the hate,  
and denied all you've made,  
You have drank my life,  
There's no more life inside
