I just want to say to you that I am here, I've grown but I  
still need you,  
I'll forever be a child for you

I just want to say to you that I am here, I've grown but I  
still need you,  
I'll forever be a child for you, waiting so long to long

Willy you be here now forever, can I trust in you again?  
Willy you be here now forever I want to trust in you.

I'm cold alone this night,  
You've left my life,  
And only tears are mine,  
I freak to wait again, to trust always,  
That things would be someday like before again.

I just want to say to you that I am still here,  
Missed so much things without you,  
Building my life without your presence

I'm cold alone this night,  
You've left my life,  
And only tears are mine,  
I freak to wait again, to trust always,  
That things would be someday like before again.

I freak to wait again, to trust always,  
That things would be someday like before again.
