You gotta leave me now  
You gotta go along  
You gotta chase a dream  
One that's all your own  
Before it slips away

When you're flying high  
Take my heart along  
I'll be the harmony  
To every lonely song  
But you'll learn to play

When you're soaring through the air  
I'll be your solid ground  
Take every chance you dare  
I'll still be there  
When you come back down  
When you come back down

I keep looking up  
Waiting your return  
My greatest fear will be  
That you will crash and burn  
And I won't feel your fire

I'll be the other hand  
That always holds a line  
Connecting in between  
Your sweet heart and mine  
I'm strung out on that wire

And I'll be on the other end  
To hear you when you call  
Angel you were born to fly  
And if you get too high  
I'll catch you when you fall  
Catch you when you fall

The memories, the sunshine  
Every new day brings  
I know the sky is calling

Angel let me help you with your wings

When you're soaring through the air  
I'll be your solid ground  
Take every chance you dare  
I'll still be there  
When you come back down

Take every chance you dare  
I'll still be there  
When you come back down  
When you come back down
