Thunder, thunder, lightning ahead, long  
Kiss you, kiss you dark & long

Thunder, thunder, lightning ahead  
Thunder, thunder, lightning  
Thunder thunder, lightning ahead  
Now I kiss you dark & long

Thunder thunder, lightning ahead, long  
Kiss you, kiss you dark & long, long

Me I'm just a waitress she said  
I went and bought a new head she said  
I look at you I believe in you she said  
Screaming into the eye of the lens  
I want to smash it up, I want to break it down  
I want a wall of tears to wash away

Thunder, thunder, lightning ahead  
Thunder, thunder, lightning  
Thunder, thunder, lightning ahead  
Now I kiss you dark & long

Filled with tainted girls and motel frills  
What a laugh, you was done up there mate

Thunder, thunder, lightning ahead  
I could kiss you dark & long  
Thunder, thunder, lightning ahead  
Now I kiss you dark & long

Shout your love, the stars are black  
The church is sweet, my skin is hot  
Thunder, thunder lightning ahead  
Now I kiss you dark & long, shout your love
