What you waiting for, gazing
what you waiting, what you watching the skies for
what you waiting the holes are for water let the fall
let the clothes in let the clothes on
keep your clothes on
whoever you love,
whoever, you look happy
i feel dazed, i feel day's orange glow
with a pineapple head
walks in the sun
with a friend the mouse with a friend the shadow
war machine : war machine
wrap her arms : wrap her arms around me
war machine : war machine
come to wrap her arms, tight to wrap her body
she move fast : she move slow
she move down into the water : i remember her
i remember unnatural
i was leaving you
what you looking for babe
your voice, i'm not incredible
your voice is in desperation
i hear you
i hear bleeding

between her arms are tight :
wrapped around her body :
she move fast, she look down : [repeat]
she won't look in my eyes :
i remember her now :
her unnatural surprise
