You've got sixteen telephones
One in your bedroom
One in your bathroom
One in your car
A big long driveway super-sized doorway
Mega-sized hallway, motorized bar

But what goes around
Well it comes around
And what goes around
Will it let you down?

Chorus
What use is a great big house
If there is no love in it
And what use is a great big car
When it drives no love around?

You've got red wine, caviar
Genie in a jam jar
Forty five alibis
And your own jet
Indoor, outdoor, everything and more
Got your own seashore, never get wet

But what goes around
Well it comes around
And what goes around
Will it let you down?

Repeat Chorus twice

And I'm drivin' round and round
And I'm drivin' round and round
And I'm drivin' round and round

Repeat Chorus to end
