So many mad distractions
Coming down to try to take control
Could cause a chain reaction
Detrimental to my soul

Fear can be paralyzing
Not sure which way you're supposed to go
All the prayer and the agonizing
Still no clear cut road

Chorus
Gotta follow the beat of my heart now
I'm not looking back again
Well You gave me the beat of my heart, Lord
And now I just gotta jump on in

I know there's a lot at stake
But hey, right now
There's a chance I gotta take
No perfect situation
May ever come my way

Repeat Chorus twice

The desert's burnin' hotter
Real refreshment is all I ask
I am so wanting water
Might end up drinking sand

You're the cure for this condition
Before I find I wasted all my time
Set my heartbeat in motion
Mercy, meet my mind

Repeat Chorus to end
