[If you're coming home, like your letters say

And the place you're staying now, ain't too far away

Can you write tonight, just to let me know

Cos since you've been away girl, I've missed you so

You won't let me down, cos I'm sure you're homeward  
bound

And you'll be back safe and sound, cos I just know

Baby make it soon, make it soon (I can't wait another  
day)

Baby make it soon, make it soon (Lord I know I need  
you, come on)

Baby make it soon, make it soon (I need you right  
away)

Baby make it soon, make it soon (Lord I've gotta see  
you)

Right back here, here in my arms

If you're coming home like you promised to  
Will you write tonight and tell me what you're gonna do  
For I'm lonley now and I'm gonna stay that way  
Till I hold you so tightly in my arms again

You won't let me down, cos I'm sure you're homeward  
bound

And you'll be back safe and sound, cos I just know

Baby make it soon, make it soon (I can't wait another  
day)

Baby make it soon, make it soon (Lord I know I need  
you, come on)

Baby make it soon, make it soon (I need you right

away)  
Baby make it soon, make it soon (Lord I've gotta see  
you)  
Right back here, here in my arms

You won't let me down, cos I'm sure you're homeward  
bound  
And you'll be back safe and sound, cos I just know -  
Whoa -oh

Baby make it soon, make it soon (I can't wait another  
day)  
Baby make it soon, make it soon (Lord I know I need  
you, come on)  
Baby make it soon, make it soon (I need you right  
away)  
Baby make it soon, make it soon (Lord I've gotta see  
you)  
Come back baby  
Baby make it soon, make it soon (Lord I've gotta see  
you)  
Come on baby  
Baby make it soon, make it soon (I've gotta see you)  
Baby make it soon, make it soon (Lord I know I need  
you)  
Come on baby  
Baby make it soon' make it soon (Lord I've gotta see  
you) ]
