This is hate

This is pain

This is life

1,2,3 GO!

Fear guides me through this

You can't control this

All the fucking lies, every alibi,
that's the reason why, and you can't realize

Everything feeds on hate

makes us part of what you create

Everything feeds on pain

draws us in to what you call sane

Time drove me to this

I can't escape this

All the fucking lies, every alibi,
that's the reason why, and you can't realize
