My life was cold
But when i tasted you
I need you more and more
Eyes like the oceans
Salty you make me feel
So heavenly

Chorus

Real women
You are real
You are real woman
You are real woman
Baby it's you
Real women
You are real
You are real woman
You are real woman
Baby it's true
(repeat)

Lips like a rose
Baby you are so magnificent cause
You know what your man needs
And i can feel my fear when i hear our heart beats

Chorus

You are my wonder
You are the one
You are real women
And know that you know girl
I just want you to hear this from me
Chorus

Thanks to feel
