Hmm, listen
I noticed that you don't act the same
Always leaving home in the evening
It's driving me insane
Baby do you think I'm a fool?
Well I followed you today baby
And what I seen blew me away

I saw you, riding
On the north side with your baby's daddy
You didn't see me, I was low key
Just tell me baby
What the deal be?
I saw you, kicking it
On the north side with your baby's daddy
You didn't see me, I was low key
Just tell me baby
What the deal be?

You always say that he ain't no man
But you, you find a way to see him
Whenever you can, oh yeah
Baby do you think I'm a fool?
Well I followed you today baby, ha
And it blew my mind away
When I saw you...

I saw you, riding
On the north side with your baby's daddy
You didn't see me, I was low key
Just tell me baby
What the deal be?
I saw you, kicking it
On the north side with your baby's daddy
You didn't see me, I was low key
Just tell me baby
What the deal be?

So do you love him?
Or do you love me?
If you love me baby testify about it

Can you do that for me?
Oh so do you want him?
Or do you want me?
Me, me, me, me
Cause if you're down
I'll give you the chance to stay with me
Even though I saw you riding yeah

I saw you, riding
On the north side with your baby's daddy
You didn't see me, I was low key
Just tell me baby
What the deal be?
I saw you, kicking it
On the north side with your baby's daddy
You didn't see me, I was low key
Just tell me baby
What the deal be?
