Blind to deceit - By our fears - To a kingdom of false
pretence

Selfish hands- Fllacies - Never ending

Dominate - The fix is in

A crusade not meant to win

Historize and plagiarize to seize control

Control-Control

Believe my every word

Believe and i will protect you

Dont criticize

Bow down you might meet your maker

I will dedicate my soul - Dedicate my life for you

Bow down you might meet your maker

Eyes in the sky - Tyranny

A fascist stranglehold - Never ending

Submission - A punished age

Accept all though end of days

Hail the shrine - All hail the shrine to seize control

All Hail the shrine

All hail the shrine to seize control

Believe my every word

Believe and i will protect you

Dont criticize

Bow down you might meet your maker

I will dedicate my soul - Dedicate my life for you

Bow down you might meet your maker

A house of judgement so divine that we burn our
brothers

track 2 = the march 2008 (WoopAss)
