How can we close our eyes
When the walls around us
Wear thinner each day?
How can we mute our voices
When a parade of chaos marches
Throughout the land?

This is the end, end of all
We've been down this road before
Yet we all just stand and watch
Everlasting ignorance has led our ways
Forewarned, but still forgotten
Our history erased

This is the end of all
This is the end of all
This is the end of all

Down on our knees, we bow to hatred
Down on our knees, we fade away
Down on our knees, we bow to hatred
Down on our knees, we fade away

We've tried and failed
Now Rome burns again
Again

Now this is the end

How can we close our eyes
When the walls around us
Wear thinner each day?
How can we mute our voices
When a parade of chaos marches
Throughout the land?

This is the end of all
This is the end of all
This is the end of all

Down on our knees, we bow to hatred
Down on our knees, we fade away

Down on our knees, we bow to hatred
Down on our knees, we fade away

Down on our knees, we bow to hatred
Down on our knees, we fade away
We fade away

This time it's all of us
This time it's forever
