After tonight don't leave you girl...
I'm a declare my love, love you, girl!
I'm a declare my love, love you, girl!
I'm a declare my love!
I'm a declare my love to you, girl!
I'm a declare my love!
I'm a declare my love to you, girl!
Yeah! to you, to you, to you, check it out!

[Chorus:]

Gotta declare my love to you, gotta declare my love!
I wanna declare my love to you,
I wanna declare my love!
Gotta declare my love!

See, I've been holding back,
I was in a wreck!
It took me way to long,
We're still getting on the track!
All my life I've been searching for the facts,
And I now I know for sure
I love you more than you can...
You got me hoping,
My heart is jumping,
I lose my shelter
We could be lovers!
You got me obey, whatever you want,
I'll treat you better, until you're older!

[Chorus:]

I gotta declare my love, babe!
I gotta declare my love to you, I gotta declare my love!
I wanna declare my love to you,

I wanna declare my love!
Gotta declare my love!

Was it my intention to make you cry?
Just like a... got me falling for your type!
That's right!
I only miss that for my surprise

Is putting my love for you way before my life.
You got me hoping,
My heart is jumping,
I lose my shelter
We could be lovers!
You got me obey, whatever you want,
I'll treat you better, until you're older!

[Chorus:]

I gotta declare my love, babe!
I gotta declare my love to you, I gotta declare my love!
I wanna declare my love to you,
I wanna declare my love!
Gotta declare my love!

I tell it to the world; you're supposed to be my girl,
I just hope you understand it!
I always put you first,
Is gotta be my curse
I just wanna be your friend.

[Chorus:]

I gotta declare my love, babe!
I gotta declare my love to you, I gotta declare my love!
I wanna declare my love to you,
I wanna declare my love!
Gotta declare my love!
