Drake:

It's a celebration, clap clap bravo; lobster and shrimp
and a glass of mescado for the girl who's a student
and her friend who's a model
Finish the whole bottle and we gonna do it big like this
Yeah, and he was just practice, he ain't in your world
you could take him off your atlas
Girl you're on fire can I be the one you match with, I'll
give you a credit card and baby you could max this, out
Show me where your tats is show me where your hands
at maybe I could grasp it
They say if you get her you could understand her
better and she known to be a cheater but that's only if
you let her
Yeah
And I got it together
So when they talk and try to detour me it's like
whatever,
Tell em I appreciate the help but I just gotta know for
myself...

Would you love me if I couldn't sing songs,
If I couldn't take you home
Would you love me if I couldn't buy you things,
Shoes and diamond rings
Would you love me if I spent my life,
With the same old 9 to 5
Would you love me if I couldn't give it all to you

Would you love me if I didn't say
Baby you're looking fly today
Would you love me if we can't break away,
Take you on a holiday yeah
Would you love me if I say things I don't mean
Would you leave or stay
Girl would you love me, I say maybe
If it goes wrong would you just leave me
Now would you love me, I say maybe
If it goes wrong, would you stay or go?
Would you love me

This lifestyle is vile this shit will damage ya, especially
when you think no ones understanding ya
These girls prove with their overprotective managers
got paparazzi over my shoulders clicking on their
cameras, snap snap snap until they run out of card
space
You remind me of Tony's sister and Scarface
Just take it easy on love and slow your heart rate
Goodness gracious the top it's just such a hard place
Yeah, but if you never even been there, it kinda makes
sense why you dyin' to pretend there
Spillin' all your drinks, takin' pics in your swimwear
Head up in the clouds you survivin up on thin air
I know that shit is exhausting girl,
And ya mistakes are costing girl
And maybe y'all don't need the help, but I gotta see for
myself

Would you love me, I say maybe
If it goes wrong, would you stay or go

Baby everybody loves a summer day
But can you trade the sun for just a rainy day,
In the darkest hours love will find it's way
Oooh
Would you love me, I say maybe
If it goes wrong would you just leave me
Would you love me, I say maybe
If it goes wrong, would you stay or go...
