lite my cigarette on yer destruction  
"don't do it"'s become nothing more than a slogan  
i killed with you, helped you cover it up  
extremism works, but it's never enough  
my hand got burned, yours got shot  
the red ribbon in my hair means a lot  
i ain't goin' to hell with you  
disappear on my q  
it ain't over till the fat lady wheels  
i could never understand your deals  
flaked out on me before the prom  
remember you by the scar on my palm
