I don't worry about a hater
Make him count four
I ain't worry about a paper
Bitch I am on ..
I don't need no rist
I am screaming we are the best
Ain't no competition cause you know
We are the best yes we are the best
They know that we are the best
An ancient freak tell your nigger cut the check
Put the house on me guarantee to win the bet
I got the victory they are upset
I made it I made it it took a long time cause I hated
I defeat the waiting all it took is patience
I got tired to wait I went through all these stages
The darkness and the pages they held me at the
station
Fuck their litigations they took my whole life
Tell the judge I face it let this .. face it
Cause they make me racist cause they make me taste
this
This industry is .. but I know the code
Stay up on your hustler and put down any hore
I ain't selling my soul what the fuck the goal
I just tide my shoes I had to take my goal
Hoes on a .. pimps I control I had to dice them off
I had the devil on my shoulders
I don't worry about a hater
Make him count four
I ain't worry about a paper
Bitch I am on ..
I don't need no rist
I am screaming we are the best
Ain't no competition cause you know
We are the best yes we are the best
They know that we are the best
An ancient freak tell your nigger cut the check
Put the house on me guarantee to win the bet
I got the victory they are upset
I came up slow but niggers drive fast
Starting .. and ended over cast

You can kiss my ass if you are hating on me
Got a white bitch , waiting on me
I just got to brush it never place it on me
I do it for the gangsters and the real og
Soul ogs pals ogs I don't respect them haters busses
are ..
Far from low key decreases they know me we are from
trapping
The rapping you are gonna see don't ever let a nigger
determine what is gonna be
The ball in my hand three seconds is on me .. day hit or
I miss
I am married to the money baby
I don't worry about a hater
Make him count four
I ain't worry about a paper
Bitch I am on ..
I don't need no rist
I am screaming we are the best
Ain't no competition cause you know
We are the best yes we are the best
They know that we are the best
An ancient freak tell your nigger cut the check
Put the house on me guarantee to win the bet
I got the victory they are upset
Aaaaaa
