This is my time, this is my time

And now you'll go back where you came from

Now is the time to accept, I'm right

Was right

Por ser lo mas provocar was wrong

Was wrong

Everything's over and I feel sober

To start my life

That one step took me right there

True intentions are not predisposed to our fear

Searching without a cause

I will not stand here and be controlled

Inside

Lo necesito sin tu control

I'm not fine

Siento en me vena ninguna pena

Without a fear

A take that one step right there

True intentions are not predisposed to our fear

Searching without a cause

Like a game of chess I carved your chest

Don't snap back, pull the trigger into my neck

Bust your move, drop the news

It's a crying shame I'm feeling all the pain

And you want to slap my face

You'll try to put me in your place

Well I'll step back and then attack

This is my time to get my life back

True intentions are not predisposed to our fear

Searching without a cause
