Leaves of gold singing songs beneath my feet  
As days grow cold,  
Can I take the bitter with the sweet, my love?  
I remember so well (so well, so well)  
This was your time of year  
And I wish you were here.....

Silver blue patterns on my window pane and  
Thoughts of you shiver softly in my mind  
Again, my love,  
I remember so well (so well, so well)  
This was your time of year  
And I wish you were here.....

Summer sun, crazy days and river bends  
And waters run, this is where I felt the stormy hands,  
My love,  
I remembered so well (so well, so well)  
This was your time of year  
And I wish you were here.....
