Another day brings us closer  
Closer to our dream  
Can't let anybody stop us  
The horizon's where we'll meet

Flying high  
In the blue sky  
We'll make it if we try high

Reaching out for our freedom  
Spreading out our wings  
The power of the wind behind them  
Strengthens our feelings

Flying high  
In the bluest sky  
We'll make it when we fly high

\*We're young and the time is now  
Begin all the new beginnings  
Believe in ourselves and then freedom is real  
>From up high  
It will be so much different  
Way up high

\*Repeat

We've got an inner power  
So we're on our way  
Destiny still awaits us  
Creates a brand new day

Flying high  
In the blue sky  
We'll make it if we try high

\*Repeat (x2)
