Music by Undertaker, Lyrics by Ron.

Time is fading away

Life ends in pain

Legacy is gives to the living

Death sustained by the dead

The prophecy of doom

Is called out by man

Human development

Hand in hand

To create a dis aster

To abolish the land

Our abhorrence gives us

A command - to continue

time is ending

life is fading

No where to bloom

This is the prophecy of doom

The radiation wave spreads

All man creations

Are the causing of this

Got to stop it from taking place

Slow the pace

Nothing will bloom

This is the prophecy of doom
