Come and make me feel a little better  
My crime is not for you but rather heaven  
You were lying grounded angel and I clipped your wings

Oh don't you know you're beautiful to suffer  
Don't you know that you could make it all better  
And you will

Come and make me feel a little safer  
Don't judge before the angels in the basement  
I got Michael and Abaddon and I got Gabriel

And oh don't you know you're beautiful to suffer  
Don't you know that you could make it all better  
And you will  
Come and make me feel a little better

He never told no one what he had there  
And if he had they'd just say you're crazy

Come and make me feel a little better  
My crime is not for you but rather heaven
