Is it close?
Maybe close enough to touch
It's what you wanted for so long
And soon we'll all be here

It is still
That's enough that you don't know
When all you needed was to care
'Laters' never again

And are you thoughtful?
And are you simple?
And are you beautiful?
What will you do when it all falls down?
What will you do when it all falls down?
Let it all fall down (all fall down)
Let it all fall down (all fall down)

So love with love
Is all that you believe
It's all about
To love with love
Is all that you believe
To love with love
It's all about
Is all that you believe

And it comes around
To where it all began
And it's so down
To love with love
Is all that you believe

And it comes around
To where it all began
And it's so down
To love with love
Is all that you believe
