It's not new years, but you resolve
To show no respect for me at all
You say I'm useless as
A million miles of cellotape
I should make you
A paper heart
So you would see that from the start
I've been a friend, but you
Treat me like an enemy.

I hit the breaks for you
(As the lights turn to green)
All the cars are waiting
(As the lights turn to green)
All the cars are waiting
I made no mistakes, you did
(As the amber turns to red)
I can't excuse the words you said
(As the amber turns to red)
I can't excuse the words you said

I'm looking out for you, whoa
Saving confrontation
These makeup's and break-ups
Complicate the friendship
I'm tired of being mad with you
This awkward position
These makeup's and break-ups
Complicate the friendship
Just like you
Just like you do

It's headline news, you see
(It's the fact that we can't speak)
Tongue-tied by the memories
(It's the fact that we can't speak)
Tongue-tied by the memories
I decorate honestly
(I'm dizzy cause I believe)
You used me like bubblegum
(I'm dizzy cause I believe)

You used me like bubblegum
I'm dizzy cause I believe

I'm looking out for you, whoa
Saving confrontation
These makeup's and break-ups
Complicate the friendship
I'm tired of being mad with you
This awkward position
These makeup's and break-ups
Complicate the friendship
Just like you
Just like you do
Just like you
Just like you do

Whoaâ€¦
Whoa

It's not new years, but you resolve
To show no respect for me at all
You say I'm useless as
A million miles of cellotape

I'm looking out for you, whoa
Saving confrontation
These makeup's and break-ups
Complicate the friendship
I'm tired of being mad with you
This awkward position
These makeup's and break-ups
Complicate the friendship

And I can't help you, I won't make you fall
I can't help you, I won't find you at allâ€¦
