Baby, baby, I apologize
But I fantasize, of you and I
In a thousand years I never thought
I'd be here with you, with you
You're like the perfect dream came through

There's no me without you
There's no you without me
You're my special gift from god
There's no me without you
There's no you without me
And I love just who you are
So before I let you go away
Can I get a kiss good night?
So before I let you go away
Can I get a kiss good night?

You make me feel brand new
So true, there was no should of, could of, would of
Maybe, just maybe, you are an angel, whoa
Girl I love you so, I will never let you go
There's no one who love you better
I just had to let you know
So, ain't nobody playing girl
Tryna make you my missis
Tryna give you my last name girl
Wanna spend forever with you

There's no me without you
There's no you without me
You're my special gift from god
There's no me without you
There's no you without me
And I love just who you are
So before I let you go away
Can I get a kiss good night?
So before I let you go away
Can I get a kiss good night?
So before I let you go away
Can I get a kiss good night?
So before I let you go away

Can I get a kiss good night?
