We all share the light
It is so freely ours
I pray my friend
Sun comes down easy
Sun comes down easy

I am not a fisherman
But I do know the sea
I say to him
Waves come down easy
Waves come down easy
Waves come down easy
Waves come down easy

The clouds that hang above
They nourish, they feed
I pray my friend
Rain comes down easy
Rain comes down easy

There is a rhythm
She plays her drums her songs
This night will come
This day will end
We must go easy
We must go easy
We must go easy
We must go easy

Walk, walk slowly
Don't run
There is nowhere to get to
Walk, walk slowly
No ???
Stay with your family

Walk, walk slowly
Don't run
There is nowhere to get to
Walk, walk slowly
No ???

Stay with your family

Walk, walk slowly
Don't run
There is nowhere to get to
Walk, walk slowly
No ???
Stay with your family

Walk, walk slowly
Don't run
There is nowhere to get to
Walk, walk slowly
No ???
Stay with your family

This day she gives us
It is a gift
Honor your family

This day she gives us
It is a gift
Honor your family

This day she gives us
It is a gift
Honor your family
