"Hey Future"

It was your own fate
to come and see and try
a lot of fear and hate
and no one knows just why

Hey Future, can you check it out
what's happend ye - ah!
We humans don't want to hear about
do you feel the end

a whisper 'bout a mistake
we try to realize that shit
but all we stoopid money freaks
forget the love that we need!

Hey Future can you check it out
what's happend ye - ah!
we humans don't want to hear about
do you feel the end
