takin the road less takin  
watching you as your rakin  
He's there so that your not fakin

He is every where you are  
He is every where even in the car  
He is every where your not  
He is every where as you rot

you cant ignore him  
He is the original son of sin  
He is the devils son  
He can be many in one

the change of his look  
he is the poison as you cook  
waiting gingerly as you die  
in hell he sends you as you fry

no remorse  
off into the sunset  
riding the devils horse  
my hatred for him isnt settled yet

take a look  
at the world today  
filled with death and distruction  
break this chain and start a revaluation

because.....

he is everywhere you are  
he is everywhere even in the car  
he is everywhere your not  
he is everywhere as you rot
