This is a song, I guess for you  
do you read between the lines  
I don't wanna make much ado about relationship and  
signs  
but I want you to know that I ain't happy all the time

This is a song, I know you know that I really like you  
it's not my biz to change you and I don't really try to but  
maybe you can understand  
why you get on my nerves cause it makes me feel hurt  
when

You will be late - and I don't know why  
You will be late - I'm waiting for your  
next try  
You will be late - and in the meantime  
You will be late

It drives me nuts, you seem to ignore  
what I wanna tell you or you're too deaf, I guess for sure  
you should get a brand new pair of ears  
you just listen to me manyou just listen to me again

This is a song just for you  
do you read between the lines  
I don't wanna be the one you screw  
you won't be the one I dine  
But maybe you could understand  
why you break my nerve  
cause it makes me feel hurt when

This is a song I guess for you  
do you read between the lines  
I don't wanna make much ado
