Chain me free
Lose the key, right now

She was from my home town
I've never met her
ditched her boyfriends
'cause I was better
She showed me pictures in her car
pictures of the Beach Boys
and Kelly Slater
Bounced from the party
'cause the girls all hate her
She said she wants to see the stars

She's had some fast times
First times always last times
Out in the foxglove, I'm in...

Chain me free or let it fall
we can be all, we can be all
I said, what's in your head?
Lose the key or please don't call
We can be all, we can be all
I said, she kissed me dead

She calls me during Loveline and gets the machine
She wants to see me but not to be seen
As if she's got some mystery
I missed her for a few weeks before I called her
Still didn't get it, so this is how I stalled her:
Even though you're seventeen
I've got to tell you, you're too old for me

She's had some fast times
First times always last times
Out in the foxglove, was that?...

Chain me free or let it fall
we can be all, we can be all
I said, what's in your head?
Lose the key or please don't call

We can be all, we can be all
I said, she kissed me dead

You're all drugged out and delirious
Don't close you eyes, are you hearing this?
I'm about to say something that I swore I'd never say

I gotta' get it out before I get away
I gotta' get it away before I get it out
I gotta' get it away before I get it out
I gotta' get it away before I get it out, yeah

Chain me free
Lose the key

Chain me free
Lose the key
