(The time is now)
When we are loud, we are one
When we are loud, we are one
When we are one, we are more
We are more, we are more, we are...
We are one.

(the. time. is. now.)

When we are loud, we are one
When we are one, we are more
We are more, we are more, we are...
We are one

If we're not the change we want to see
If we're not the change, the change, the change
Who will be?

When we are loud, we are one (if we're not the change)
When we are one, we are more, we are more (we want to see)
When we are loud, we are one (we are the change)
When we are one, we are more, we are more, we are more
We are...
We are one.

When we are loud, we are one
When we are one, we are more
We are more, we are more, we are more, we are...
We are one
One
We are more, we are more, we are more, we are...
We are one
When we are loud, we are more, we are more, we are one
