Beauty, you've got me banished in the satellites
And this is where the fated play games he can't win
Time ran out here and I can't decide which is worse
Losing you or wishing you were here to keep me sane

I'm standing on the edge of you
I'm standing on the edge of you
I'm falling off the edge of you
And this is how I miss you

Don't listen to me
I don't wanna see you bleed
I just wanna take my time to breathe her in
Now dance away from me
Slow it down to bleed and sing
'She's more than I ever wanted'

Heaven, you held her, then you let me go
I hope it brought recovery
And I should learn to keep quiet for your sake
No one wants to hear me sing empty words for empty
scenes
The ending was hard enough the first time now

I'm lying here emotionless
I'm lying here emotionless
She moves her devil hands too fast
And this is how I miss you

You are so,
You are so compromising
And you are so,
You are so lucky

I never thought this would lead to so much hurt inside
I know I'm feeding you more
I'm sorry to put you out

And this is fucking crazy
I'm fucking crazy for you
More so than I know

I want to be
I want to break my nails inside your skin, love
And wrap your legs around me
But this bottle's not full enough to make me sleep

Don't listen to me
I don't wanna see you bleed
I just wanna take my time to breathe her in
Now dance away from me,
Slow it down to bleed and sing
'She is more than I wanted'
