Everything comes around again
The circus returns to town again
Oh, no, oh, yeah
Now you are at my door again
Crawling around my floor again
Oh, yeah

'Cause your love is gone and you're all alone
And you miss me
But you didn't miss me
When I was all alone, you're back, 'cause you know

I can't help but love you
I can't help but kiss you
I can't help but let you in
I'm off to the slaughter
And off to the lifehole
Right back to where we begin

'Cause the love has gone and your on your own
'Cause you missed me
La, la, la, la, la, la
You just press rewind, we go back in time

Everything comes around again
What goes up will come down again
Oh, no, oh, yes
Wearing your old white dress again
Making my head a mess again
Oh, no

'Cause your love is gone and your all alone
And you miss me
But you didn't miss me
When I was all alone, your back, 'cause you know

I can't help but love you
I can't help but kiss you
I can't help but let you in
I'm off to the slaughter
And off to the lifehole

Right back to where we begin

'Cause the love has gone and your on you're own
'Cause you missed me
La, la, la, la, la
You just press rewind, we go back in time

'Cause your love is gone and your all alone
And you miss me
But you didn't miss me
When I was all alone, your back, 'cause you know

I can't help but love you
I can't help but kiss you
I can't help but let you in
I'm off to the slaughter
And off to the lifehole
Right back to where we begin

I can't help but love you
I can't help but kiss you
I can't help but let you in

You miss me, you miss me
Your love has gone and you're all alone
You miss me, you miss me
