English translation

If my wish could come true, if my feelings could be
conveyed,
then I'd like to meet you.
If time could be rewound, if everything could be
started over,
then I'd like to meet you one more time...All I need is
only you.
Every time, I'm thinking of you.
All I need is only you.
Every time, I'm thinking of you.
All I need is only you.
Every time, I'm thinking of you.
All I need is only you.
Every time, I think about you.
Tomorrow will have nothing but agony to offer,
and time will only wastefully flow on.
The hole opened up in my bosom
cannot be filled up no matter what I do.
Even now I still think only about you.
Only my feelings and my thoughts of you
have always remained by my side.
If time could be rewound, if everything could be
started over,
then I'd like to meet you.
I don't need anything anymore. I only want you.
If only my wish could come true...The umbrella held
over my shoulder,
the usual route leading to the station,
and the warmth of our held hands,
I will never forget any of them. You used to always
praise me
for every little thing.
Now, recalling every event in our past,
I engrave them onto my heart and walk on.
If my wish could come true, if my feelings could be
conveyed,

then I'd like to meet you.
If time could be rewound, if everything could be
started over,
then, once more, I'd like to meet.
..If my wish could be granted, then right here right now
I'd like to hug you tightly into my arms,
and never to let you go again.
I will take take you in with no regret,
and swear that everything I say and do is earnest and
honest.If my wish could come true, if my feelings could
be conveyed,
then I'd like to meet you.
Somewhere in the sky above us, what are you watching
right now?
Once more, I'd like to meet.
..If my wish could come true, if my feelings could be
conveyed,
then I'd like to meet you.
If time could be rewound, if everything could be
started over,
then I'd like to meet you one more time...All I need is
only you.
Every time, I'm thinking of you.
All I need is only you.
Every time, I'm thinking of you.
All I need is only you.
Every time, I'm thinking of you.
All I need is only you.
Every time, I think about you.
