MALE:

You are gentle, kind
Bright as the brightest star at night
And I long to tell you so
But the words don't seem to go

And how I long to tell you
That I long to hold you
Have to wonder if
I should confess or go on
With the rest of my life

Now my old dreams are fading
Slowly dissipating
And what can this be
Happening between her and me?

FEMALE:

You are soft and sure
But I feel all so insecure
When I stand before you I'm all I am

BOTH:

But something just rings true
I'm finding all I need in you
But what my heart says is right
I know is wrong

As these feelings overwhelm me
True love I am finding
But can I turn away from all I've known?

This love runs deeper

MALE:

Than I've ever felt before

FEMALE:

Never felt this way before.

BOTH:

Long to live and long to love
But need to fight the fire

And how I long to tell you
That I long to hold you
Have to wonder if
I should confess

MALE:
Or go on with the rest of my life?

FEMALE:
Should I go on just living my life?

BOTH:
Now I have dreams of staying
Just where I am standing

MALE:
Just right here with you

FEMALE:
Oh, right here with you

MALE:
Oh, how can this be real?

FEMALE:
Between him andâ€¦

MALE:
Between her andâ€¦

BOTH:
Me
