I had a dream last night  
That we lost the fight  
I had a reason to stay in the back of my head  
Still, I have to say goodbye  
Here, in this bed

Free  
You are free  
Free  
You are free

You oughta lay down low  
Covered in packs of snow  
Lay down low  
Covered in packs of snow

Your hands they know  
We're nearing the end

Free  
You are free  
Free  
You are free

Stop telling me the right way to go  
I'm on my own  
You're selling our old ways  
Stop telling me the right way to go

You are free  
You are free  
Living things need to be free  
You are free  
Like everything wants to be
