### "What I Need"

Visit "[What I Need](#)" on [MotoLyrics.com](https://MotoLyrics.com)

What I need is so much, what I need is over  
Even when I sleep I just walk on the border

What I need too much is days  
What I need too much is nights  
What I need is lost in the lights

As long as I'm not satisfied, I try  
But I don't even know what I try

What I need is not so simple  
What I need is incredible  
What I need is so much trouble

Where are you? Sister, won't you appear?  
Sister,sister,sister, won't you appear?  
I give you all my love, give you all my soul again

What I need is never found  
What I need is never done  
What I need is ever wasted

What I need is so much, what I need is over  
Even when I sleep I just walk on the border

What I need too much is days  
What I need too much is nights  
What I need is lost...

But sometimes I love you all  
I'm so glad to live in this world  
All your voices are gold  
All your ideas come from God!  
What I need is over.
